ALL ARE AT LIBERTY.

University of Michigan Rioters Out on Bail.

Ann Arbor, Mich., March 18.—All the university of Michigan students arrested Monday night in a riot at the Star theatre are at liberty, but fifteen of them had to furnish \$1,000 each, after being led into Justice Doty's court and back to their cells, like hardened criminals, handcuffed and under a heavy police guard. Three students pleaded guilty on a charge of flogging and were fined \$1.65 each.

The fifteen who gave bail will have their examinations Friday morning on a charge of rioting. As soon as the boys were arraigned and their bail fixed, local business men came to their aid, with offers of bail, the required amount being promptly furnished in each case. There are no indications of any recurrence of last night's disturbance.

At a mass meeting of students last night, it was decided to raise money by popular subscription to reimburse the owners whose property was damaged in the riot, on condition that the criminal charges against students be dismissed. It is estimated that the damage amounts to \$2,500.

When a Union Was a Crime.

Massachusetts was the first to abolish the old outgrown fear of organized capital, but not until 1898, exactly one century ago. Rhode Island was second and New York third in granting freedom to corporations. But Pennsylvania did not open up the gates of law to corporations until 1878.

These anti-combination laws oppressed capital and labor alike. They made trades unions illegal as well as trusts. Less than 100 years ago American workmen were thrown into jail for the "crime" of having organized a union. In fact, it was mainly the bitter protests made by wage-workers that tore these obnoxious laws out of the statute books.—Broadway Magazine.

International Labor Bureau.

The British section of the International Association for Labor Statistics was organized on Feb. 24, 1905. The association itself has its headquarters at Basel, Switzerland, and the objects are set forth as being as follows: First, to serve as a bond of union to all who believe in the necessity for labor legislation; second, to organize an international labor office; third, to facilitate the study of labor legislation in all countries and to provide information on the subject; fourth, to promote international agreements on questions relating to conditions of labor; fifth, to organize international congresses of labor legislation.

He Was Right.

"Johnny," said the big brother of an upstart small boy, "go to the shoemaker's and see if my shoes are mended, will you?"

"Now," said the urchin. "Why not?" "Cause they ain't done yet." "How do you know?" "Cause I ain't taken 'em yet, that's bow."

Approaching Infinity.
